APPROVED FOR RELEASE
DATE: AUG 2004
From: PORT

B/15

7 February 1945

I have been able to procure 20 reels of 400 feet each 35 m.m. film. STARCH is very anxious to have these sent to his organization at home and, as I understand it, would like to have you send them in to him.

2. At the present moment, 18 reels are packed in one wooden case which is very heavy and the remaining two reels are separate. I was wondering whether you would be able to handle it in this form or whether you would like us to repack the 20 reels in separate packages. I would be grateful if you would let me know at your earliest convenience how you wish to dispose of this matter.
